Recruitment and Graduation Benchmarks University of Illinois at Urbana-Champaign 2012-2013

The *Recruitment and Graduation Benchmarks* is a report produced annually by the Career Services Council at the University of Illinois at Urbana-Champaign. The Career Services Council is comprised of career services offices and affiliates at the University. In 1954, placement and career services became an official function of the University of Illinois with the adoption of a policy statement by the Board of Trustees that recognized the “desirability of offering a coordinated service to facilitate the placement of its students and alumni in positions so that the maximum value of its education program may be realized both by graduates and by employers.” A basic tenant of this policy is that the “service is primarily an activity of the University as a whole and, secondarily, that of its constituent parts” (May 15, 1954). Thus, the University affirmed its desire to maintain specific career services for students yet supported a coordinated effort of service to students, alumni, and employers. The tradition continues today. This report not only summarizes the work of individual career services offices but it also provides a summary of the efforts campus-wide.

One function of the Council is to document the work of the various career offices on campus in their efforts to effectively and efficiently serve students, employers, and the university community. According to its mission adopted May 21, 2001, the Career Services Council is “a gateway for students to experiential education, post-graduation employment, and advanced degree work. The Council is a connecting and coordinating body that addresses policy and practice in matters of career service, employment, and post-graduate opportunities.”

The *Recruitment and Graduation Benchmarks* report is a compilation and summary of information collected each year from career services offices that have significant recruiting activities. The data is gathered each summer from the preceding academic year and the report is distributed in the fall. In addition, the report includes information provided by graduating seniors from the *Chancellor’s Senior Survey on the Undergraduate Experience at UIUC* regarding their plans post-graduation. The *Benchmarks* report has a long history with some data tracing back to 1988-89. Special thanks to the many career services offices that contribute to this report and to the *Office of the Provost* which administered the *Chancellor’s Senior Survey* in spring 2013.

Recruitment at the University of Illinois at Urbana-Champaign

Career services offices are asked to report on full-time employment recruiting, internship/co-op recruiting, and career fair participation for the previous academic year. They provide data on the number of on-campus student interviews, interview schedules, employer contacts, job/internship postings, and student participants. Campus-wide totals and data for each of these areas by career services office may be found in Appendix A.

The number of on-campus student interviews decreased this year with 14,158 interviews conducted on campus during 2012-13 (decrease of 2,629 interviews). The decrease is attributed to more accurate reporting by individual units as well as a possible change in recruiting practices by employers. Employers are offering more full-time positions as a result of internships and are not actively interviewing for as many full-time positions on campus.

Similarly, the number of interview schedules increased slightly to 2,181 from 2,176 the previous year. Interview schedules seem to have stabilized during the past four years although they are significantly lower from their highs in 2007-08.

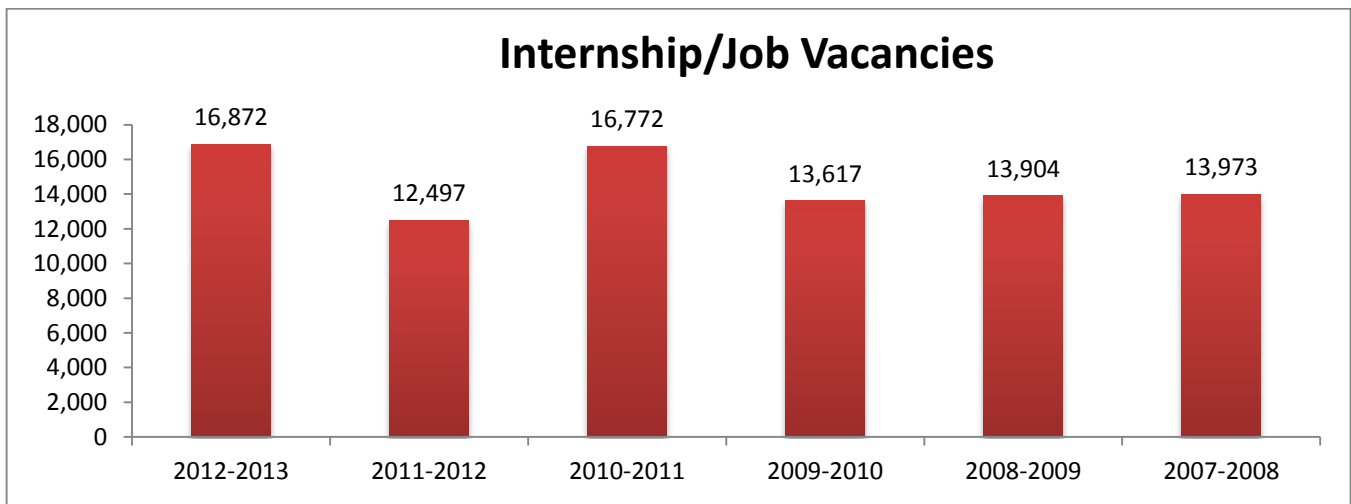

Student participation in career services efforts remained steady after a significant increase last year reaching an all-time high for the past six years. Last year, nearly 7,000 more students participated in career services recruiting than the previous year (a 23.7% increase). The increased student participation indicates that students are more active in their pursuit of jobs and internships with the slowly recovering economy. Increased student engagement may also reflect the continued outreach to students by career services offices. Usage of career services offices has generally experienced a steady increase in student participation since the data was first collected in 1997-98 (details in Appendix B).

During 2012-2013, the number of employers participating in career services was 8,473 (31% increase from last year's 6,462 employer contacts). The rebound in employer participation is the highest in the past six years. This increase is reflective of the intentional effort by the Illinois Career Services network to reach out to employers and engage them with multiple offices. The employer contact numbers are not unique thus one employer may have multiple relationships with several career services offices. Relationships are defined by any employer that engages a career office via career fairs, on-campus recruiting, and/or job postings. Appendix B provides longitudinal data.

The number of job and internship vacancies posted with the career services offices increased to 16,872 from a previous high of 16,772 two years ago. With the exception of 2011-2012, internship/job vacancies are comparable to the previous four years. Posting of vacancies is still the most widely used way for employers to engage with career services offices at Illinois.

A summary table of recruiting activity from career services offices reporting for 2012-2013, including employer relationships, interview schedules, student interviews, internship/job vacancies posted, and student participation may be found in Appendix A. Individual career office details for each category of recruiting activity (full-time employment, internship/coop opportunities, and career fair participation) is available as well.

The chart below shows recruiting trends during the past ten years. Student participation maintained the same level after a significant increase last year, reaching an all-time high. The number of student interviews declined slightly after three years of consistent numbers and significant declines in the previous three years. The increasing practice of hiring interns for full-time positions has reduced the number of interviews on campus. The number of schedules has remained nearly the same during the ten years. Relationships with employers increased again this year, reaching a 10-year high after several years of modest decline. It is noteworthy that position announcements increased significantly this past year after a drop last year.

Campus-wide recruitment activity for the University of Illinois at Urbana-Champaign from 1991 through 2013 is reported in Appendix B.

Graduation Plans - UIUC Senior Survey 2013

The *Chancellor's Senior Survey on the Undergraduate Experience at UIUC* is administered each spring to graduating seniors. This year the survey was administered by the Office of the Provost (Staci Provezis, Senior Communication and Evaluation Coordinator) rather than the *Center for Teaching Excellence*. In addition to questions about their undergraduate experiences, seniors are asked about their post-graduation plans. Of the 5,856 seniors sent the survey, 3,135 responded (54% response rate). It needs to be noted that the survey was administered one month earlier than in previous years. See Appendix C for representation data. A full summary of 2013 post-graduation plans by college may be found in Appendix D. It is noted that there is no analogous survey for graduate or professional students at the University of Illinois at Urbana-Champaign. Following is a general summary of the results regarding the post-graduation plans of 2013 senior respondents.

According to the *2013 Senior Survey*, 49% of the seniors planned to work, 32% planned to continue their studies, 6% had other plans, and 12% were uncertain. In 2012, 54% of the seniors were planning to work, 33% were continuing their studies, 5% indicated other plans, and 7% were uncertain. With a somewhat improving economy, it is surprising that fewer seniors indicated planning to work than last year and slightly less are planning to continue their studies. A larger percentage is uncertain this year (+5%). Students may be waiting to decide on their plans based upon employment opportunities. While the economy shows some improvement, students are more uncertain about their future plans. Also, the earlier administration of the survey may have resulted in more uncertainty.

Of survey respondents, 19% had confirmed employment. This confirmed employment number is less than the 22% last year, but the same as 2011. Improvement in the economy seems to be fluctuating and last year's number was not sustained.

Following are the most frequent occupations indicated by the graduates of the class of 2013 compared to the class of 2012:

Most Popular Occupations-Class of 2013	Most Popular Occupations—Class of 2012
1. Engineering 27.6%	1. Engineering 27.0%
2. Business Operations 9.8%	2. Accounting 9.3%
3. Financial Operations 6.9%	3. Business Operations 8.4%
4. Computer and Mathematical 5.5%	4. Sales and Related Occupations 5.3%
5. Accounting 5.3%	5. Agriculture, Farming, Fishing, and Forestry 5.0%
6. Management/Trainee 4.9%	5. Computer and Mathematical 5.0%
6. Sales and Related Occupations 4.9%	5. Education, Training, Library, and Museum 5.0%
8. Education, Training, Library and Museum 4.7%	8. Financial Operations 3.6%
9. Marketing 4.3%	9. Management/Trainee 3.1%
10. Banking 3.2%	10. Banking 2.6%
11. Agriculture, Farming, Fishing and Forestry 3.0%	11. Marketing 2.4%
12. Actuary 2.8%	12. Actuary 1.2%

Engineering and Business Operations were the most frequent occupations cited by the Class of 2013. *Financial Operations* and *Computer/Mathematical* occupations are third and fourth on the list suggesting the return of these sectors to recruiting. *Accounting* dropped to fifth with *Management/Trainee* and *Sales and Related Occupations* tying for sixth. *Agriculture, Farming, Fishing, and Forestry* saw a drop to eleventh. The other occupations on the list were similar just in different order. It should be noted that 10.2% of the respondents indicated *Other* when asked to name the field in which they will be employed.

Fewer graduates (19%) had confirmed plans for graduate and professional school, the lowest percentage during the past seven years. The earlier administration of the Senior Survey may have meant seniors had not heard about graduate school acceptance. This may explain why both confirmed employment and confirmed graduate/professional school percentages are lower for this graduating class. It also may reflect the uncertainty of the economy and their options. It will be important to watch next year's numbers to determine if this is a trend or simply lower numbers for this class.

Below are the top graduate and professional degree programs in which 2013 graduates planned to enroll, compared to the classes of 2012 and 2011 (as reported by the seniors in each of the graduating classes). *Accounting* and *Engineering* were identified the most by seniors as their chosen graduate programs. *Medicine* is third with *Law* fourth. *Psychology, Sociology, and Social Sciences, Biological Sciences, Social Work, Architecture, and Physical Therapy* continued to be mentioned by many graduates as well as many other health-related graduate programs.

Class of 2013	Class of 2012	Class of 2011
1. Accounting and Finance 12.1%	1. Engineering 13.8%	1. Engineering 11.6%
2. Engineering 10.1%	2. Medicine 10.4	2. Law 11.1%
3. Medicine 8.8%	3. Accounting and Finance 8.0%	3. Medicine 9.0%
4. Law 8.1%	3. Law 8.0%	4. Accounting and Finance 6.1%
5. Psychology, Sociology, & Social Sciences 5.1%	5. Psychology, Sociology, & Social Sciences 5.3%	5. Biological Sciences & Related 4.1%
6. Social Work 4.7%	6. Biological Sciences & Related 4.2%	6. Physical Therapy 3.7%
7. Biological Sciences & Related 4.1%	7. Social Work 4.0%	7. Architecture 3.6%
7. Physical Therapy 4.1%	8. Architecture 3.4%	8. Psychology, Sociology, & Social Sciences 3.6%
9. Health Related Sciences or Services 3.9%	9. Physical Therapy 3.5%	9. Health Related Sciences or Services 3.4%
10. Architecture 3.3%	10. Education & Related 3.2%	10. Education and Related 3.3%
11. Audiology & Speech Pathology 2.7%	11. Health Related Sciences or Services 2.7%	11. Veterinary Medicine & Sciences 3.3%
12. Physician's Assistant 2.5%	11. Veterinary Medicine & Sciences 2.7%	12. Human Resources & Industrial Relations 2.7%
13. Veterinary Medicine & Sciences 1.8%	13. Health Administrators/Public Health 2.1%	13. Social Work 2.3%
13. Health Administrators/Public Health 1.8%	14. Audiology & Speech Pathology 1.8%	14. Audiology & Speech Pathology 2.0%
15. Human Resources & Labor and Ind. Rel. 1.7%	15. Human Resources & Industrial Relations 1.6%	15. Pharmacy & Pharmaceutical Sciences 2.0%

The *Senior Survey* also asked students that indicated they will be attending graduate/professional school to name the school they will be attending. The University of Illinois at Urbana-Champaign was listed by more than 254 of 630 seniors that responded to this question.

Graduating seniors with confirmed employment are asked to name their future employer on the *Senior Survey*. Following are the results for the past 3 years:

Top Employers – 2013 Graduating Seniors as indicated on the Chancellor’s Survey

2013	2012	2011
1. Teach For America (21) 2. PwC (12) 3. John Deere (11) 3. Deloitte (11) 5. Epic (10) 6. Ernst & Young (9) 7. Microsoft (8) 7. Accenture (8) 7. KPMG (8) 10. ExxonMobil (6) 10. Allstate (6) 10. IBM (6)	1. Microsoft (4) 1. Coca Cola (4) 3. Abercrombie & Fitch (3) 3. Kohls (3) 3. John Deere (3) 3. Boeing (3) 3. KPMG (3) 3. Navistar (3) 3. BMO Harris (3) 3. Northrop Grumman (3) 3. Deloitte (3) 3. Teach For America (3)	1. Deloitte (13) 1. Teach for America (13) 3. Epic Systems (10) 4. Cummins (7) 4. KPMG (7) 4. Allstate (7) 7. Archer Daniels Midland (6) 8. Caterpillar (5) 8. John Deere (5) 10. JP Morgan, Simplex Investments, Sargent & Lundy, Dow, Liberty Mutual, Monsanto, Accenture, Hewlett-Packard, The Nielsen Company (4)

Teach for America was named by an overwhelming number of graduating seniors (21) in 2013. *PwC*, *John Deere*, *Deloitte*, and *Epic* were the next most named employers and represent a range of industries. After *Teach for America*, the number of seniors that named specific employers was in a small range and represent a diversity of employers, ranging from manufacturing and software technology to consulting and insurance employers. A larger number of respondents on this year’s Senior Survey is welcome and likely more representative of the destination of graduating seniors.

Unique Employer Relationships with Career Services Offices at the University of Illinois

For the seventh year, a master list of employers recruiting on campus was compiled from the career services offices involved in recruiting on campus. The summary (Appendix E) provides information on the total number of “unique” employers recruiting on campus as well as the number of employers having relationships with several offices and the type of activity in each office (e.g. job/internship posting, on-campus recruiting, and career fairs). The data offers a benchmark for demonstrating the multiple recruitment activities and employer relationships for University of Illinois career services.

Number of Employers (unique) by Number of Career Office Relationships 2012-2013	
Number of Career Office Relationships	Number of Employers
6	8
5	18
4	132
3	269
2	711
1	2364
	Total
	3,502

Of the 3,502 unique employers that had relationships with career services at the University of Illinois at Urbana-Champaign, 1,138 employers had relationships with two or more of the career offices compared to 1,120 last year. The total number of unique employers is less than last year (3,502 compared to 3,755).

**Number of Employers by Number of Contacts with
Career Services Offices
2012-2013**

Number of Career Office Contacts	Number of Employers
11	2
10	4
9	4
8	12
7	8
6	32
5	61
4	150
3	333
2	703
1	2193
	Total
	3,502

Each career service office may have contact with an employer through on-campus recruiting, career fairs, and job/internship position postings. The table above shows that 1,309 employers or 35% of the employers had 2 or more contacts with offices across campus. The number of employers with five or more contacts with Illinois career offices was 123 (up from 114 last year). See Appendix E for more information.

Below are the 26 employers/organizations that had recruiting relationships with 5 or more career services offices in 2012-13. The full list of 158 employers/organizations that had recruiting relationships with 4 or more career offices may be found in Appendix E.

<i>Employer/Organization</i>	<i># of Career Office Relationships</i>	<i>Employer/Organization</i>	<i># of Career Office Relationships</i>
John Deere	6	Kraft Foods, Inc.	5
Monsanto	6	Momentum Scientific LLC	5
Archer Daniels Midland	6	Dow Chemical Company	5
Procter & Gamble	6	Epic Systems Corporation	5
General Mills	6	Ingredion	5
PepsiCo	6	Syngenta Inc.	5
Honeywell	6	BigMachines Inc.	5
Keyence Corporation	6	Kenexa	5
Kimberly-Clark Corporation	5	McCain Foods	5
Abbott Laboratories	5	McKinsey & Company	5
Cargill	5	Nestle Purina Company	5
Hormel Foods Corporation	5	Unilever	5
Boeing	5	Xerox	5

Fortune / Global 100 Companies at Illinois

The University of Illinois at Urbana/Champaign had 69 of the top Fortune 100 companies recruit on campus. See Appendix E for the complete list. 8 of the top 10 companies recruited from Illinois last year.

Rank	Employer/Organization	Rank	Employer/Organization
1.	Wal-Mart Stores	7.	General Motors
2.	ExxonMobil	8.	General Electric
3.	Chevron	9.	Valero Energy
6.	Apple	10.	Ford Motor

The University of Illinois at Urbana/Champaign had 41 of the top Global Fortune 100 companies recruit on campus. See Appendix E for the complete list. Of the top 10, the following 5 companies recruited at Illinois including all of the top 3:

<i>Rank</i>	<i>Employer/Organization</i>	<i>Rank</i>	<i>Employer/Organization</i>
1.	Royal Dutch Shell	6.	BP
2.	Wal-Mart Stores	8.	Toyota Motor
3.	ExxonMobil		

HireIllini Initiative 2012-2013 – Steering Committee

This was the 7th consecutive year of funding from the Provost's office for the HireIllini initiative. Initiatives and projects to enhance employer relations for the year included:

- **Illinois Recruiting Forum** (5th annual) for employers to share best practices and recruiting trends; 98 individuals from 62 different organizations attended along with 36 students
- Purchased advertising in the *Business Ledger Book of Lists*– full page/back cover/color ad for HireIllini with “Expertorial” on how to recruit students; readership of the Book of Lists is estimated at 25,000
- Continued alumni magazine ads – full page/color ads for each of the quarterly editions
- Sponsored **Midwest ACE and NACE Conferences** for visibility to employer members

Use of Career Services (according to Graduating Seniors)

This was the seventh year the *Chancellor's Senior Survey* asked seniors if they had used career services. This year 73% (same as last year and the highest ever-recorded) of the 2013 graduating seniors responded that they had used career services. The table below reports results by the college of the graduating senior comparing the last three classes. The percentage of “yes” responses for each college regarding use of career services is fairly similar to previous years with relatively small increases or decreases by each College. Over 80% of *Business* and *Engineering* seniors indicated use of career services.

College of Senior	2013		2012		2011	
	Yes Responses	Percentage	Yes Responses	Percentage	Yes Responses	Percentage
ACES	184	71%	171	65%	175	66%
Applied Health Sciences	192	69%	117	73%	148	72%

Business	270	87%	207	90%	191	89%
Education	41	49%	28	52%	43	63%
Engineering	392	82%	304	81%	369	83%
Fine and Applied Arts	82	45%	66	43%	63	37%
LAS	863	74%	621	73%	791	69%
Media/Communications	132	71%	86	77%	105	70%
Social Work	20	50%	18	90%		
Total	2178	73%	1619	73%	1887	71%

*Total responses on survey – 3,135 (2013), 2,249 (2012), and 2,671 (2011)
54% Response Rate for Senior Survey in 2013

Summary

Career services offices at the University of Illinois at Urbana-Champaign saw a decrease in the number of student interviews, likely due to employers hiring their own interns and conducting fewer interviews on campus for full-time positions. Scheduled interviews have remained the same for the past four years. Job/internship postings returned to the level of two years ago after a decrease last year. Employer relations increased significantly (31%) again this year, reaching the highest level in the past ten years. Student participation remained at the same high level as last year when it increased significantly (24%), surpassing numbers of the past ten years. Extensive efforts by career services offices continue to cultivate employer relationships campus-wide and increase student participation in career activities. The University of Illinois with its extensive career services network continues to enhance strong employer relationships and increase student participation.

Post-graduation plans of 2013 graduating seniors saw a decrease in respondents indicating that they plan to work (49% - down 5%) and with confirmed employment (19% - down 3%). While the percentage of seniors planning to continue their education decreased slightly (32%), only 19% compared to 23% last year had confirmed a specific graduate/professional school.

While the number of unique employers decreased this year, The University of Illinois at Urbana-Champaign had 69 of the top Fortune 100 companies recruit on campus and eight of the top ten. In addition, five of the top ten employers on the Global Fortune 100 companies recruit at Illinois, including all of the top three.

The percentage of graduating seniors indicating use of career services (73% in the last two years) continues to be impressive and indicative of the value students place on career services at the University. This is the seventh year that senior survey data supports a broad use of career services. The widespread use of career services by students strengthens student candidacy for employment and graduate/professional school, on-campus recruiting by employers, and post-graduation opportunities for students.

*Chancellor's Senior Survey of
Undergraduate Experience*

Survey Demographics

The Chancellor's Senior Survey on the Undergraduate Experience at UIUC

2013 Summary

In 1989, a task force appointed by the Chancellor created a questionnaire to be administered to all graduating seniors at the University of Illinois at Urbana-Champaign. The results of the survey, the Chancellor said, “will be useful in responding to requests for information on how our students feel about the educational experience they have had as undergraduates here and in identifying problems on campus which need our attention.” The survey was administered in 1990 through 1993 and from 1996 to the present year.

Beginning in 1998 the Senior Survey has been administered electronically. In March 2013 an e-mail message regarding the Senior Survey was sent to all seniors on the May graduation list. The e-mail message from the Chancellor asked students to complete the online survey via an embedded link within the message. Three days following the initial e-mail message a follow-up message was sent reminding students to complete the survey. A second reminder was sent six days later and a final reminder a week later. Survey respondents were entered into a lottery for the chance to win a gift card (one \$500 Visa gift card and three \$150 Visa gift cards). Of these 5,856 seniors, 3,135 (approximately 54%) responded. Similar to past years, the respondents were roughly representative of the graduating class by academic affiliation, but a higher proportion of females than males responded to the survey as did a higher proportion of Caucasians and Asian-Americans.

Percentages

Gender	Respondents	All Seniors
Female	58.5	50.8
Male	41.2	49.2

Ethnic Origin	Respondents	All Seniors
Caucasian	77.3	64.5
Latino/a	5.7	6.2
African-American	5.1	4.6
Asian-American	19.0	12.2
Native American	0.7	0.1
Native Hawaiian	0.6	0.1
Unknown	0.0	0.3

College of Graduation	Respondents	All Seniors
ACES	8.5	8.7
Applied Health Sciences	9.2	8.4
Business	10.4	9.6
Media	6.4	5.5
Education	2.8	2.8
Engineering	15.8	18.1
Fine & Applied Arts	6.3	5.8
Liberal Arts & Sciences	38.9	40.1
Aviation	0.1	0.1
Social Work	1.4	1.0

Care should be taken in interpreting the results of the survey because the small number of respondents in some sub-categories makes the results statistically unreliable.
